

Heaters

We provide full service back-up for Wallas and Webasto heating systems, and when it comes to new installations we can supply packages for boats from 20ft to 50ft.

Our service technicians will be happy to discuss your requirements and provide configuration options to suit them

We can answer the question of
" forced air or hot water?"
" how many outlets, and where to locate them?"
" heat in the head? How about a heated towel rack?"
" engine pre-heating?"

and many more questions besides!
